PROFESSIONAL SUMMARY

I'm an experienced Web/Software Developer, Database Administrator, ICT consultant, and Trainer. I have excellent design and coding skills, as well as the ability to convert client requirements into exciting applications.

Contributed ideas and suggestions in team meetings with team leader and delivered updates on designs and enhancements.

I am a self-motivated web developer with a high level of experience working on multiple projects. Passionate and hardworking with a penchant for meeting deadlines.

Interested in a role with a company that promotes best practices and offers a wealth of customer projects.

During my career as a Web Developer, I have gone the extra mile to ascertain company expectations and oversee site creation from initial planning through rollout and support.

Detail-oriented approach to maintaining website responsiveness, effectiveness and security.

I am an experienced web/software developer. I have a strong background in project management and development of websites, mobile apps and platforms. I'm proficient in a number of programming languages and systems.

I have over five (5) years of experience in Software Development, Web Development and Mobile Application.
